December 28, 2011

Subject: Solid Structures, Inc.  
Brownsville, TX

To Whom It May Concern:

We recently completed several repair and alteration projects utilizing Solid Structures, Inc. at three Land Ports of Entry in Brownsville, TX, Los Tomates (Veterans)LPOE, Gateway LPOE, and B&M Bridge.

Mr. Frank Arriaga, President of Solid Structures, approaches each project with a "Can Do" attitude which carries over to his field staff and subcontractors that allowed us to complete the projects within the budget and on or ahead of schedule. The professionalism of Solid Structures exceeded all our expectations. We would use Solid Structures, Inc. again on any future projects and highly recommend them.

Please feel free to contact me if you have any questions and/or need additional information.
